

COLLEGE TESTING

Which tests do our students take?

- ▶ SAT
- ▶ ACT
- ▶ Subject Tests
- ▶ APs
- ▶ TOEFL

Things to Know

- ▶ These tests are designed to measure college readiness for students.
- ▶ Colleges vary in the importance they place on standardized testing.
- ▶ **Remember**: Your value as a college applicant is not defined by a number on a test (no matter how high or low you score). The application process is holistic and colleges consider a variety of factors when making admissions decisions.

The ACT and SAT are very similar

- ▶ Both tests have a reading comprehension section.
- ▶ Both tests have a math section.
- ▶ Both tests have an optional essay.

What are the Differences?

Science

- ▶ ACT has a science section; SAT does not.
- ▶ The ACT science section requires no knowledge of chemistry, biology or physics.
- ▶ The ACT science section is really designed to assess how well students can utilize information provided in charts and graphs.
- ▶ The SAT incorporates science items and asks students to utilize data from charts and graphs in both the verbal and math sections, but it does not break these questions out as a separate test category.

What are the differences?

The essay

- ▶ Both offer an optional essay, but they are different:

- ❖ ACT Essay:

The essay prompt presents 3 perspectives on an issue, and students are asked to evaluate the perspectives; to state their own perspectives; and to elaborate on the relationships among the perspectives.

- ❖ SAT Essay

The essay prompts ask students to read a passage and consider how the author uses evidence to support his or her claims. Students must write an essay explaining how the author builds an argument, analyzing how the author uses techniques to strengthen their logic.

- ▶ One is not easier or harder than the other; they are simply different.

What are the differences?

Scoring

SAT

- *Students receive 2 scores: Math and Evidenced-based reading and writing.*
- *Each section is scored out of 800 points, with a possible score range of 200-800.*
- *The sections are then added, for a composite score of 400-1600.*
- *The essay is scored separately. Students receive a score of 2-8 in 3 domains: reading; analysis; and writing.*

ACT

- *Students receive 4 scores: English; Mathematics; Reading; Science.*
- *All 4 sections are scored on a 1-36 scale.*
- *The four scores are then averaged for a composite score of 1-36.*
- *The essay is scored separately. Students are evaluated along 4 domains: Ideas & Analysis; Development & Support; Organization & Language; and Use & Conventions. Students receive a writing score from 1-36.*

If the material is so similar...

What's the REAL difference?

The ACT is faster paced & more time sensitive than the SAT.

The ACT is a more literal test than the SAT.

Neither test is better than the other; some students may perform stronger on one than the other. It varies by individual.

- ▶ How should I prepare for the SAT or ACT?
- ▶ Do I have to send all of my scores?

How many times should I take the SAT or ACT?

We typically recommend 2.

- ▶ Students' scores often go up the second time. Why?
 - ❖ *They know what to expect and are more comfortable.*
 - ❖ *They have completed more school.*
- ▶ Almost all schools super score the SAT. Many schools super score the ACT.
 - ❖ *Super score means colleges select a student's highest sub-score from each test section, across test dates, and create what could be a more impressive super-score.*
 - ❖ *Students only need to increase their scores on one section to increase their super score.*
- ▶ Typically, students do not increase their scores beyond 2 or 3 test sittings.

Should I take SAT and ACT?

Maybe!

- ▶ Pick the test you think you feel plays to your strengths.
- ▶ If you are not satisfied with your scores, you might consider trying the alternate test.
- ▶ Some students perform similarly across the 2 tests; some score very differently.
- ▶ Any preparation you do for one exam will translate to the other.
- ▶ You choose whether to send SAT scores or ACT scores to colleges.

Should I take the optional essay on the SAT or ACT exam?

Yes!

- ▶ Many schools require the essay.
- ▶ If your list of schools is not finalized, you may not know whether you are going to be required to submit an essay score.
- ▶ You can not sit for the essay alone.
- ▶ If you discover you need an essay score after you have sat for the SAT/ACT, and you did not complete the essay originally, you will have to re-sit for the entire exam.

How should I prepare for the SAT or ACT and other tests?

▶ SAT/ACT

- ▶ Independent work
 - ❖ Online resources
 - ❖ Books
- ▶ Group classes
- ▶ Individual tutors

▶ Subject Tests/AP

- ▶ Must study! CHS classes, study books, tutors, etc...
- ▶ For subject tests, make sure to assess if there are any gaps in the knowledge that is assessed on the exam and the material you have learned.

Do I have to send all of my scores?

No!

- ▶ College Board and ACT both allow for Score Choice.
- ▶ You have the option to send all of your scores or to pick which scores you send.
- ▶ For SAT and ACT, you pick by test date.
- ▶ For APs and Subject Tests, you pick by subject assessed and by date.
- ▶ Score choice is not likely to make a difference. Nearly all schools will pull out the students' highest scores over the course of their testing. If in doubt, send everything.

What if I do not test well?

Not all schools require SATs and ACTs.

- ▶ Hundreds of schools no longer require standardized testing
- ▶ Usually need to provide a writing sample or alternative submission
- ▶ Check out www.fairtest.org for a full listing of test flexible schools

When should I take which test?
