

# Reflection

This step is one of the most important parts of PAL and many learning experiences. For the past few months you have been learning how to complete a self-directed learning process. Now it is time to **look back** and think about what you have learned.

#1. How do you feel about how much you learned about your topic?

#4 What did you like <b>best</b> about your PAL experience?

<b>The Ultimate Reflection Question</b>	
#5 If you could go back in time and start all over, what would you do differently?	

#6 Why is it OK that you (or someone else) were unable to answer every research question?

#7 Overall, how would you rate your PAL experience?
