

Arts Academy Summer 2009

“The art student is driven by an intrinsic need to explore visual ideas, solve artistic challenges, or view the world in a way others might not see. Artistic vision can lead to an artistic education and life’s work” (Cathy Sivak—ArtSchools.com writer). We here at the Upper Main Line YMCA strive to encourage and achieve this goal within ourselves and our students. To aid in this goal, we have established and developed a multitude of summer art academies. Here, your child will have the opportunity to explore his/her artistic side by experimenting with different types of visual art, music, dance, and theatre.

In our visual art academies, students will discover new and different styles of art, artists, and techniques. Techniques will include everything from painting and drawing, to working with clay, paper making and book binding. In our theatre academies, students will delve into all facets of theatre from acting and singing to storytelling and puppetry. A world of possibilities awaits your child in our Y academies—we hope to see you there!
