

Recording in Schools and on School Buses/Vehicles

Recording on School Property

The interior and exterior of District schools and other District property may be equipped with video recording devices. The intention of such recording devices is to promote a safe school environment for all stakeholders. The Superintendent is authorized to provide law enforcement with access to live images captured by video recording devices in order to promote the health, safety and welfare of student, staff, and other individuals.

Video and Audio Recording on School Vehicles

The Board authorizes the use of video and audio recording on school buses and vehicles while transporting students for school-related purposes for disciplinary and security purposes. Audio and/or video recording does not assure the elimination of misconduct and cannot guarantee the absolute safety of students or others.

The Board directs the Superintendent or designee to ensure that:

1. Each school bus and school vehicle that is equipped with audio recording equipment contains a clearly posted notice informing drivers and passengers of the potential for audio recording.
2. This Policy and the accompanying Administrative Regulation is posted on the District's publicly accessible website.
3. Each school year, this Policy is included in the student handbook, and in any other District publications that sets forth the comprehensive rules, procedures, and standards of conduct.
