

*Student Teachers and Interns*

Each school year, the Superintendent or designee shall accept a limited number of student teachers and interns.

The Director of Human Resources shall work out mutually satisfactory agreements with institutions relative to a student teacher and intern program.

Student teachers and interns shall possess required credentials as established in applicable state law and regulation.

A building administrator shall conduct an interview of the student teacher or intern before recommending approval for placement.

The following guidelines will prevail:

1. Insofar as possible, student teaching in any one school shall be limited to a program so that no student in that school will be subject to the instruction of more than one student teacher in any school day.
2. No one District employee shall be continually responsible for student teaching or internship. In so far as possible, the cooperating-staff member shall be rotated among the staff.

The District provides no reimbursement to student teachers and interns for transportation to or from the District.
