

Complimentary Admission to Events

The Board acknowledges that there are those in the community who should be offered the opportunity to attend certain school activities without charge. Such individuals include citizens 62 years of age or older and veterans. The activities and events to which this Policy applies include home sports events during the regular season, excluding PIAA play-offs and tournaments. This Policy also includes most concerts and dramatic productions. Complimentary admission to the annual high school musical will be limited to general admission seating if space permits. The Superintendent will establish regulations to implement and publicize this Policy.
