

School Attendance Areas

School attendance areas will be determined by the Board based on the recommendation of the Superintendent of Schools. Attendance areas within Tredyffrin and Easttown Townships will be defined without regard to these township boundaries.

Current attendance areas for each school as established by the Board are defined in Regulation 5115.

Transfers within the District

Students moving from one school attendance area to another within the Tredyffrin/Easttown School District during the school term are permitted to continue the school year in the school in the former attendance area without interruption or transfer until after the end of the school year.

The Superintendent of Schools may approve other exceptions to school attendance areas where documentation clearly exists that indicates such an exception in school assignment is in the best interest of the student and not otherwise detrimental to the efficient operations of the District.

In instances where transfers or exceptions are permitted or approved as set forth in this Policy, parents shall be responsible for transportation unless bus service exists on established routes without additional cost to the District or unless exceptional circumstances exist as determined in the sole discretion of the Superintendent or Superintendent's designee.
