

District Vehicles

District vehicles shall be used only for school business purposes unless a board approved employment contract provides otherwise, or when the Superintendent or designee specifically authorize an employee to take a vehicle home due to an unforeseen or business-related emergency. District vehicles shall not be used for commuting to and from home to the worksite, except as authorized above and consistent with state and federal tax laws. District vehicles shall be housed on district property when not being used for school business purposes, except as authorized above.
