

*Board Member Participation at Graduation*

All sitting Board members are welcome to participate in graduation, which includes processing with the graduating class, sitting on the stage with the high school administration and sharing in the awarding of diplomas. The Board President is invited annually by the high school principal to offer brief remarks to the graduating class. The Superintendent of Schools shall introduce and recognize Board members at graduation.

Former Board members who have an immediate family member (child or grandchild) in the graduating class shall upon request be granted special seating adjacent to the stage. This seat will allow the former Board member to view graduation and to congratulate their family member graduate as the graduate descends from the stage.
