

*Public Performances and Community Services by Student Organizations*

Worthy and appropriate educational values often accrue from student and Student Organization participation in civic and community affairs as individuals or as members of a school musical, dramatic, public speaking or service organization.

The values that may result from this participation should be carefully balanced against any regular school work that may necessarily be missed. In this regard the academic schedule of the student shall be given primary consideration.

Care must be taken that such public appearance is completely devoid of exploitation and that it is carried on with the approval of the parents of the students involved.

All public performances and community services by Student Organizations must be approved by the Building Principal. Requests for such events must be made sufficiently in advance (preferably thirty days) so that time permits proper arrangements if requests are acceptable.

Rarely, if ever, should requests be approved that take students out of our community.

All contracts involving public performances and community services by Student Organizations must be approved by the Business Office.
