

*Curriculum*

The curriculum in each of the curricular areas will continue to be developed with maximum involvement of district staff members. The complete curriculum, curriculum guides and/or special materials related to specific curricula shall be distributed to all staff members according to their teaching assignment. It shall be the responsibility of each staff member to be thoroughly familiar with the materials, to utilize and implement the materials in their classroom, and to provide suggestions or recommendations concerning the curriculum that can be used in future developmental activities.

The Curriculum Council, and its provision for staff representation, is designed to be an open channel of communication for staff members to express concerns, suggestions and recommendations regarding the curriculum.

Access to School Materials

From time to time ideas, operating procedures, record forms and publications developed in or for the School District may be made available to outside non-profit or profit organizations for use or distribution. No outside organization shall be granted exclusive access to or control over the material that is made available.
