

BYOD Registration: Macbook

1. From the Wi-Fi settings on your device, choose the **T/E** Wi-Fi.
2. Type in your network username (do not include @tesdk12.net) and password.
3. Click **Connect**.
4. Open an Internet browser and visit **powerschool.tesd.net/ssl/ssl.html**
5. Scroll to **Mac:** on the instructions screen.
6. Click the link to **Download the TESD certificate for web browsing**.
7. The **paloaltofw certificate** file will download to your Downloads folder.
8. Double-click to open it. On this window, choose **System** from the **Login** drop-down menu and then click **Add**. Once added, the Keychain access window will pop up.
9. Enter your Macbook password (or fingerprint) when prompted.
10. On the left side of the Keychain Access window, click **System**.
11. Scroll through the list of items to find the **paloaltofw certificate** and double-click to open it.
12. Click the **gray down arrow** to the left of **Trust**.
13. In the first field setting (top level), choose **Always Trust** from the drop-down menu. All other fields will change to Always Trust automatically.
14. Enter your Macbook password when prompted.
15. Close all windows. Internet access should now be available.

BYOD Registration: Windows PC

1. From the Wi-Fi settings on your device, choose the **T/E** Wi-Fi.
2. Type in your network username (do not include @tesdk12.net) and password.
3. Click **Connect**.
4. Open an Internet browser and visit **powerschool.tesd.net/ssl/ssl.html**
5. Scroll to **Windows/PC:** on the instructions screen.
6. Click the link to **Download the TESD certificate for web browsing**.
7. The **paloaltofw certificate** file will download to your Downloads folder.
8. Double-click to open it. Click **Open/Run** and **Install Certificate** in the installation window.
9. Choose **Local Machine** and choose **Next** and **Yes**.
10. Choose **Place all certificates in the following store** and click **Browse**.
11. Click **Trusted Root Certification Authorities** and click **OK** and **Next** and **Finish**.
12. Close all windows. Internet access should now be available.

BYOD Registration: iPhone

1. From the Wi-Fi settings on your device, choose the **T/E** Wi-Fi.
2. Type in your **network username** (do not include @tesdk12.net) and **password**. Tap **Join**.
3. Tap **Trust** to the ClearPass Certificate prompt.
4. The TESD BYOD portal should load automatically.
5. Checkmark to accept the **Terms of Use** and tap **Continue**. A browser window will open.
6. Scroll to the **iOS** section and carefully perform the following steps:
 - a. Tap on **Click Here to Install the TESD Certificate for web browsing**.
 - b. Tap **Allow** and **Close** the Profile Downloaded prompt.
 - c. Open your **Settings** app and find **Profile Downloaded** (under the iCloud account).
 - d. Open and tap **Install** of the paloaltofw certificate. Tap **Install** and **Done**. Enter phone passcode if prompted.
 - e. Also in **Settings**, tap on **General** > **About** > **Certificate Trust Settings**. Swipe **On** to enable paloaltofw.tesd.net and **Continue**.
7. Return to the BYOD Portal browser window and click **Continue** at the bottom of the page. You will automatically be redirected to **tesd.net** and successfully connected to the T/E Wi-Fi network.

***If you find you are connected but unable to access the Internet, please visit powerschool.tesd.net/sslcert/ssl.htm to try the installation steps again.*

BYOD Registration: Guest Access

1. From the Wi-Fi settings on your device, choose the **T/E Guest** Wi-Fi.
2. The TESD Guest portal should load automatically.
3. Enter your **full name** and **personal email address**.
4. Checkmark to accept the **Terms of Use** and tap **Register**.
5. You will receive a TESD Guest Access email in the registered email account. The email will contain username and password credentials.
6. Return to the TESD Guest portal and tap on **Already have an account? Sign In** link at the bottom of the page to enter your assigned username and password.
7. Checkmark to accept the **Terms of Use** and tap **Log In**.
8. Access to the TESD network will be available for 24 hours.
