Measurable
Action of more than
legality of presents

Developments should be considered only if approved

Consider all possible plans
that fall within ratio $\frac{M}{S}$

Create the least disruption
as possible

A person's hand is shown writing on a whiteboard with a red marker. The board contains handwritten text and some small red circles. The text includes:
Sustainable for some
Use current people is starting point
Easier to renew resources
Sustainable development
Plan simple
Set population ratio
Use existing resources

A photograph showing three men in a meeting room. The man on the right, wearing a maroon shirt and glasses, is pointing with his right hand at a whiteboard. The whiteboard contains a list of items written in black marker, with some red numbers and symbols next to them. The man in the center, wearing a red shirt, is looking down at the board. The man on the left, wearing a blue and white checkered shirt, is also looking at the board. There is a bottle of hand sanitizer on the whiteboard ledge.

Sustainable for some time ●●●●●●●●●

3 regions

3 per region

No members at large

Not 9 regions

Plan should not restrict ability to attract candidates

Keep neighborhoods together ●●●

Consider potential population of new developments ●●●

Use current regions as starting point

East/town/remains together

Compact regions ●●●

Consider regions of sitting board members

Keep plan simple ●●●

Use population ratio 2% or less variance ●

Developments should be considered only if approved

Consider all possible plans that fall within ratio ●●●

Create the least disruption as possible ●●●

Sustainable for some time

13 regions

13 per region

No numbers at top

1112

Keep neighborhoods intact ability to contact candidates

Keep neighborhoods together

Consider potential population of new developments

Use current regions as starting point

East/west/remains together

Compact regions

Consider regions of sitting board members

Keep plan simple

Use population ratio

2% or less variance

Developments should be considered only if approved

Consider all possible plans that fall within ratio

Create the least disruption as possible
