

Hillside Elementary School

4th Grade Summer Activities

••• SUMMER POSTER •••

Using a poster board (no trifold), design a picture collage of the things that you did during the summer. They will be shared during the first week of school. Include some information from the books that you read.

Some ideas to include:

- Your name
- Things you did
- Places you visited
- Books you read
- People you saw
- Photos, pictures, brochures, drawings, or anything else to help describe your summer.

••• SCHOOLOGY GROUP •••

You are a member of the following Schoology Group. Use a device (computer, laptop, iPad, etc.) to login to Schoology and access resources to practice your skills over the summer. Be sure to click “Resources” on the left-hand side to find the subject folders.

••• MATH •••

THE 24 GAME

Learning and practicing +, -, x, and ÷ math facts is extremely important. The fourth grade highly recommends **The 24 Game** for practicing math facts. For more information, check out:

www.24game.com

Sample playing card:

Make 24 using **all** four numbers one time only. Use any of the four basic operations: +, -, x, ÷

Ex: $4 + 2 = 6$

$3 + 1 = 4$

$4 \times 6 = 24$

OTHER GAMES AND ACTIVITIES:

The Set Game, skip counting, Sudoku, Yahtzee, fact families, Monopoly, etc. Many board games can help with logic & problem solving and can be a fun part of family game night.

WEBSITES:

You can find plenty of great math **websites** with help from an adult. Here are some good ones:

- nlvm.usu.edu/en/nav/vlibrary.html
- internet4classrooms.com (select "grade level help")
- studyisland.com
- worksheetworks.com
