

My Sources

As we did during Pickles and Home Fries, you need to make a list of references used for PAL research. You need to display this information somewhere near or on your project. It **MUST** be visible. The sources may be handwritten or typed. This list should be labeled "My Sources" and include **ALL** resources - books, videos, websites, magazines, etc. Use the space below to keep a draft of this list as you complete your research.

My Sources:
