## Service Learning Agreement

The mission of the T/E School District is to inspire a passion for learning, personal integrity, pursuit of excellence and social responsibility in each student. To promote social responsibility, Conestoga High School supports service learning for academic credit. A preapproved Service Learning Agreement identifies a community need, defines a student's volunteer commitment to address the need, and describes the positive benefit to the community. Typically, a service learning course is graded on a Pass/Fail basis. The proposed activity must meet regularly and span the length of a semester or year. Most approved projects will require 30 to 60 hours of fieldwork.

Students must obtain approval from a parent or guardian, the school counselor, a community sponsor, and a faculty member who will sponsor and monitor the Service Learning Agreement. It is then the student's responsibility to develop a proposal according to the outline on the back of this form. When the student has completed the proposal, an appointment must be made with an assistant principal to explain the purpose of the service learning activity and obtain final approval.
