

Helping Local Students After High School

Tredyffrin and Easttown Care is a local non-profit that has been lending a hand to your neighbors in need since 2005. Since that time, they have assisted over 1,000 local families in one way or another. You may know of them from their Holiday Drive or School Supply Drive, or know they assist with rent and utility payments, car repairs, mental health counseling, school lunches and summer camp fees. But did you know **their biggest program is a College Assistance Program?**

Perhaps the best way to really make a difference for a family is to help a student become a successful adult, without much debt. T&E Care interviews financially-qualified high school students who are motivated to achieve their goals. They provide volunteer mentors, and help with the costs of college (or vo-tech school), such as books, a new laptop, and some assistance for tuition/room/board. They work with the students throughout their schooling, as students report back each semester with updates on their progress, struggles, and achievements. Over 50 students have graduated through this program, and most are now employed in their major. About 40 more CAP students are currently at some level in school. T&E Care volunteers are *very* proud of the impact they have had on these students and their families.

One recent graduate sent this note of appreciation, which says it all. *“Thank you so much for all the help over the years. I believe I wouldn’t be where I am today without all the opportunities T&E Care provided me. Looking forward to supporting the cause into the future.”*

If you would like to make a donation to their College Assistance Program and *really* make a difference in the life of some local students and their families, please scan the QR code below or go to the [T&E Care website](https://www.tecare.org). Please put CAP in the notes. Thank you very much for considering this important support!

The basics of T&E Care include:

- It is an all-volunteer organization with almost no overhead expenses.
 - It receives no government assistance.
 - Most of its funding comes from local neighbors, organizations, and businesses.
- It relies on YOU!**
